Welcome to our **NEW Spring CoCA OPEN STUDIOS!**

We are excited to open our homes and studios to new art patrons twice this year, in **Spring (May 30 & 31)** and **Fall (November 21 & 22)**. With many studios to visit, we encourage visitors to plan for a whole weekend of art.

The community has always embraced our annual Fall show, so this Spring we are giving back by fund raising and supporting a local nonprofit. Our recipient in May is The Village of the Coastside. The purpose of this organization is to help older adults remain independently in their homes by engaging in community activities and social interactions to keep them “healthy and thriving.” We chose VOTC because many residents are facing challenges at home, and older adults’ needs are not always recognized. **Visit www.villagesofsmc.org** for more information about their services.

Thank you for your continued interest in our coastside artists. We look forward to seeing you in May *AND* November!

Patt Sheldon, Founding Artist
